

**PUBLIC-PRIVATE PARTNERSHIP FIBER NETWORK AGREEMENT
BETWEEN CHARLES COUNTY, MARYLAND AND THINKBIG NETWORKS, LLC**

This **PUBLIC-PRIVATE FIBER NETWORK AGREEMENT** ("Agreement") is entered into as December 15, 2020 ("Effective Date") by and between the County Commissioners of Charles County, Maryland, a body corporate and politic of the State of Maryland ("County") and ThinkBig Networks, LLC, a Maryland limited liability company with offices at 10807 Falls Road #1388, Brooklandville, Maryland 21022 ("ThinkBig") (collectively, "the Parties").

Whereas, the County and ThinkBig have worked together to develop the funding for a fiber optic network in specific areas of the County, and the County supported ThinkBig's efforts to secure a grant from the State of Maryland Department of Housing and Community Development for broadband expansion projects ("Grant Program"); and

Whereas, the County and ThinkBig have agreed to work together to ensure the construction of a quality, State-of-the-Art, Fiber-to-the-Premises broadband network to certain unserved areas in the County within a specified time frame; and

Whereas, this Agreement reflects the terms and conditions agreed upon by the County and ThinkBig with respect to the construction and implementation of the broadband network.

NOW THEREFORE, in consideration of the mutual promises contained herein and intending to be legally bound hereby, the County and ThinkBig agree as follows:

Section 1 Definitions

The following terms in this Agreement shall have the following meanings:

- A. **Broadband** – Relating to high-speed data transmission in which the bandwidth is shared by more than one simultaneous signal.
- B. **Blocked Location** – Any PFSA Designated Location that ThinkBig cannot Pass because it has been denied the needed easement or right of use by a property owner or home owners association.
- C. **Broadband Data Service** – Any terrestrial technology having the capacity to provide transmission facilities that enable subscribers of the service to originate and receive high-quality voice, data, graphics, and video at the minimum data rate of twenty-five (25) megabits per second downstream and three (3) megabit per second upstream for internet fixed service.

Section 2 Construction Commitment

- A. ThinkBig has applied for and received a Grant from the State of Maryland under the Grant

Program for purposes of building a fiber-to-the-premises network in the County.

- B. ThinkBig shall design, construct, install, operate, and maintain all necessary fiber and equipment for the Network to all PFSA Designated Locations within the Construction Period (as further described in Section 2.H below) and shall further provide, market, and sell broadband data services to all PFSA Designated Locations, other than Blocked Locations (which may be completed during a Post Construction Period Passing). The Network will include all constructed Service Drops. The parties acknowledge that constructing Service Drops is contingent upon customer subscriptions for broadband service with ThinkBig, and that any Service Drops constructed will be incorporated as part of the Network; however, the Network may be deemed constructed so long as Passings of all PFSA Designated Locations are complete, in addition to any other applicable obligations of ThinkBig contained in this Agreement. The Network will be designed and constructed with funds provided by the County (described below), funds awarded by the State of Maryland, funds to be provided by ThinkBig, and other funds. The Network is mapped and described in Appendix A.
- C. ThinkBig and the County intend that ThinkBig shall extend the Network to PFSA Non-Designated Locations, provided that such extensions will not impede ThinkBig from building the Network to all PFSA Designated Locations within the required time frame. ThinkBig and the County commit to work together to apply for federal and State grant funds to fund extension of the Network to PFSA Non-Designated Locations. ThinkBig and the County shall also work to develop reasonable cost-sharing mechanisms, based on ThinkBig's actual costs, among ThinkBig, the Subscriber, and the County for extension of the Network to PFSA Non-Designated Location.
- D. ThinkBig intends to extend the Network to Non-PFSA Locations, provided that construction of the Network to PFSA Designation Locations is completed within the time period prescribed in Section 2.H below and further provided that Network deployment and performance are not compromised. On an annual basis, ThinkBig shall provide the County with a map, in mutually agreeable GIS format, of all its network facilities in Charles County.
- E. ThinkBig shall commence the Project on the Effective Date. ThinkBig shall complete the Project prior to August 31, 2023.
- F. ThinkBig shall use County funds only for the approved Project and only in the PFSA. ThinkBig shall use County funds and construct the Project in accordance with the provisions of the Guide and this Agreement.
- G. The County shall undertake a design review and validation of ThinkBig's Network initial design prior to the commencement of construction and at any time when the design is substantially modified. The County's review will be expeditious and is intended to enable the County to verify for state and County stakeholders that the proposed Network meets the terms herein. The County will not unreasonably delay approval of the Network design. The County retains the right to utilize an independent consultant to assess the design review

and validation.

- H. The County and ThinkBig have mutually divided the PFSA Designated Locations into five distinct areas, known as PFSA Phases. The PFSA Phases are illustrated and described in Appendices B and E. ThinkBig shall complete each of the Phases in a timely fashion as follows: 1) Phase 1 by January 18, 2022; 2) Phase 2 by May 30, 2022; 3) Phase 3 by March 8, 2023; 4) Phase 4 by July 10, 2023; and 5) Phase 5 by August 29, 2023. A Phase shall be deemed "complete" when end-to-end attenuation, end-to-end signature and splice testing for the Phase's outside plant fiber is completed, and test results that utilize the template format in Appendix D have been submitted to the County and reviewed and accepted by the County. Unless otherwise specified by the County, if ThinkBig does not complete a Phase by the above-referenced deadline, the County may withhold further payments. Prior to final payment from the County, ThinkBig will obtain all certifications, licenses, permits, and approvals, and shall otherwise satisfy all requirements necessary to operate the Network.
- I. For all customers in the PFSA, ThinkBig will not charge any installation or construction fee for the first 300 feet of Service Drop installation or line extension, other than where directional boring or trenching is unavoidable, in which case ThinkBig will charge no more than its actual costs for directional boring or trenching construction. For all customers in the PFSA, for installation or construction that exceeds 300 feet, ThinkBig will charge customers at or below the cost of \$1.00 per foot, adjusted annually on the anniversary date of this agreement by the annual Producer Price Index, for aerial construction or direct bury construction. For all customers in the PFSA, for installation or construction that exceeds 300 feet, ThinkBig will charge no more than its actual costs for directional boring or trenching. ThinkBig will make best efforts to reduce these installation costs as much as possible. ThinkBig will notify the County of all Service Drop installation or line extension quotes that it provides to potential customers in the PFSA. ThinkBig will not charge any installation or construction fee for areas other than on Driveways as defined by County Code Chapter 276.
- J. ThinkBig shall request from all property owners and home owners associations all necessary easements and other applicable rights of use upon those properties needed to construct the Network at ThinkBig's sole cost and expense. In the event that ThinkBig is denied the needed easements or rights of use by such property owners or home owners associations in connection with a PFSA Designated Location (such occurrence, a "Blocked Location"), it shall use its best efforts to seek alternative means to ensure a Passing of all PFSA Designated Locations including the Blocked Locations. If alternative means are not available to it, ThinkBig shall notify the County, and the parties shall negotiate in good faith to devise a plan to complete the Passing or modify the Project to delay those PFSA Designated Locations that cannot be passed due to the unwillingness of the property owner(s) to grant the needed easements or other rights of use, until such time as easements or rights of use can be secured. The County acknowledges and agrees that ThinkBig will not compensate property owners or home owners associations for easements or other rights of use upon private property. In the event of a Blocked Location, ThinkBig will make best efforts to ensure a Passing of any and all Blocked Locations in future years, even after the end of the

Construction Period (such occurrence, a "Post Construction Period Passing") under the same terms and conditions as a Passing completed during the Construction Period. ThinkBig recognizes its ongoing obligation after the end of the Construction Period to complete the Network as defined by this Agreement and based on the funds received from the County under this Agreement. Upon notice given to ThinkBig by the property owner and/or home owners association of a PFSA Designated Location previously determined to be a Blocked Location that necessary easements and other rights of use may now be granted to ThinkBig, ThinkBig shall pursue said easements and other applicable rights of use within 30 days in order to complete a Post Construction Period Passing in accordance with all the terms of this Agreement, and failure to do so shall be deemed an Event of Default hereunder.

- K. ThinkBig will get prior written County approval for any changes to the Construction Commitment included herein, including modifications to the scope of work of the Project, modifications to the Network Map included in Appendix A or modifications to the Completion Date.
- L. The Parties anticipate a collaborative relationship to organize, plan, and leverage existing resources, expertise and relationships to create further efficiencies in the design, deployment and operation of the Network.

Section 3 Network Technical Requirements

- A. ThinkBig agrees to provide a Network that is capable of delivering the following technical performance requirements:
 - 1. Passive Optical Network ("PON") or active Ethernet technology to provide 1 Gbps downstream to all subscribers and 1 Gbps symmetric service to 10 percent of subscribers.
 - 2. A technology roadmap to increase speed to 10 Gbps downstream to all users and 10 Gbps symmetrical service to 10 percent of subscribers without replacement or upgrade of outside plant.
 - 3. The Network will be able to manage Quality of Service to individual users.
 - 4. The Network will include the capability to split users into multiple tiers of service, each with different maximum speeds.
 - 5. Latency <10 milliseconds to the internet exchange point in Ashburn, Virginia. ThinkBig will ensure that its upstream providers of bandwidth to the internet exchange point in Ashburn, Virginia commit to provide service to ThinkBig that meets this requirement.
 - 6. Backup power of at least 72 hours in case of an electric outage for all electronics except at the customer premises
- B. ThinkBig will determine the optimal network design and configuration to achieve these standards. ThinkBig will make all decisions regarding what assets to purchase with County

funds and County oversight/approval, such approval not to be unreasonably withheld.

- C. During the term of this Agreement, ThinkBig will make financial investments in the Network in the PFSA to maintain a state-of-the-art distribution network carrying products and services, and with service quality standards equal to or better than the products and services offered by the terrestrial, fixed broadband networks in the densely-populated areas of the County.
- D. The Network shall comply with all current applicable codes, including the National Electrical Safety Code, the National Electric Code and any other applicable federal laws and regulations and the laws, ordinances and construction standards of the State of Maryland.

Section 4 Service Requirements

- A. For the Term of this Agreement, as described in Section 8.A, ThinkBig shall operate and maintain all necessary fiber and equipment for the Network to all PFSA Designated Locations and shall further provide, market, and sell broadband data services to all PFSA Designated Locations.
- B. ThinkBig will offer residential products and services in the PFSA's with pricing equal to or better than that offered by the terrestrial, fixed broadband networks in the densely-populated areas of the County.
- C. ThinkBig will operate a network that is neutral with respect to applications, websites, type of use, and type of end-user device.
- D. ThinkBig will not collect or sell personal information from a customer without express written approval.
- E. Among other products, ThinkBig will offer data services that do not limit, quota, cap, or otherwise ration a user's total upload and download data capacity to an extent that limits reasonable use of broadband. So long as such uncapped services are available for purchase by County customers, ThinkBig may offer services that do cap data capacity.
- F. ThinkBig will maintain the Network according to the standards in Appendix F.

Section 5 Financial Commitment

A. County Financial Obligations

1. The total financial obligation of the County for this Project is \$2,598,802, subject to a Blocked Location Deduction (the "County Match"). The County shall have no further financial obligation in addition to the County Match for this Project. If, at any time, more

than five (5) percent of all PFSA Designated Locations are deemed by the County in its sole and reasonable discretion to be Blocked Locations in accordance with Section 2(j) hereof, then the County Match shall be reduced by a percentage proportional to the total percentage of PFSA Designated Locations that have been deemed by the County to be Blocked Locations (the "Blocked Location Deduction"). In the event of a Post Construction Period Passing in accordance with Section 2(j) hereof, the County will refund to ThinkBig the portion of any Blocked Location Deduction applicable to such Post Construction Period Passing.

2. Other than the County Match described above and the State Grant, all costs related to the Network are the responsibility of ThinkBig and not the County. ThinkBig will assume any and all financial risk in excess of the County and State financial obligations. All revenues from the Network accrue to the benefit of ThinkBig and not to the County.

3. In the event the County determines, in its sole discretion, that all or any portion of the State Grant Funds are not available, are not going to be disbursed to ThinkBig for any reason, or that State Grant Funds received by ThinkBig have not been properly expended, the County may, in its sole discretion, declare ThinkBig in default of this Agreement and exercise its remedies pursuant to this Agreement.

B. ThinkBig Financial Obligations

1. The financial obligation of ThinkBig for this Project has been determined by the State to be at least \$215,361. These funds must be used for capital expenditures and may not be used to fund operational costs. ThinkBig has agreed to absorb, pay and fund all operating and administrative costs associated with the Project.

2. ThinkBig shall comply with the Broadband Infrastructure Grant Agreement and DHCD's "Broadband Infrastructure Grant Program Contracting and Funds Request Procedures Guide."

C. State Financial Obligations

The State's financial obligation for this Project is \$2,924,083. The details with respect to this obligation are described in the Broadband Infrastructure Grant Agreement between the State and ThinkBig.

D. Expenditure of County Funds

1. All County Funds shall be expended on or before the Completion Date (as defined in Section 2.H of this Agreement.)

2. ThinkBig shall expend County funds in accordance with the "Eligible Grant Purposes" set forth in the Guide. County fund eligible expenses are capital expenses defined as expenses that are capitalized. All County fund eligible capital expenditures must be for new, non-

depreciated items and can include the construction of outside-plant deployment (including last mile and middle mile infrastructure), electronic equipment necessary to deliver service (including equipment shelters, wireless radio, and antenna), and other capital costs that are directly necessary to provide Broadband Data Services to the end user.

3. Funds provided by the County under this Agreement shall not be used for operating expenses, including, but not limited to: leases of any kind, the provision of customer devices (handsets, laptops, tablets, etc.), bandwidth and spectrum expenses, salaries and overhead. Funds also may not be used for the purchase or construction of towers, land, buildings, or for building renovations, tower upgrades, or the acquisition of facilities or companies.

4. Unless otherwise agreed to in writing by the County, ThinkBig shall expend at least fifty (50%) of County funds for the Project by the second (2nd) anniversary of the Effective Date.

5. All costs incurred by ThinkBig before the Effective Date and before approval by the County of the release of County funds are incurred voluntarily, at ThinkBig's risk and upon its own credit and expense, and ThinkBig's authority to be reimbursed for the County funds shall be governed by the provisions of this Agreement.

6. If, upon completion of the Project, there are cost savings and/or undisbursed funds, ThinkBig shall return any remaining County funds to the County and relinquish any claims to undisbursed funds.

E. Commencement and Completion of the Project

1. The County, its agents, and its employees shall be allowed to inspect the Project at any time during construction and upon completion.

2. ThinkBig shall ensure that all necessary approvals for the commencement of the Project have been obtained, including all applicable permits and licenses.

3. On or before the Completion Date, ThinkBig shall obtain all certifications, licenses, permits, and approvals necessary to operate the Network, and shall otherwise satisfy all requirements necessary to operate the Network.

F. Conditions Precedent to Disbursement of County funds. The County shall not disburse County funds until ThinkBig has complied with the following conditions:

1. ThinkBig has submitted, and the County has approved, all the Project plans and specifications.

2. All work described in the completed Maryland State Broadband Infrastructure Grant Program – Broadband Infrastructure Grant Funds Request form and related to the disbursement has been completed.

3. ThinkBig has complied with all terms and conditions of the Maryland State Broadband Infrastructure Grant Program – Contracting and Funds Request Procedures Guide.

4. ThinkBig shall submit the completed Maryland State Broadband Infrastructure Grant Program - Broadband Infrastructure Grant Funds Request form to the County at the same time it submits the form to the state. The submitted form shall include all backup documentation. The County's Match Required percentage on this form will be 40%.

5. All of the representations and warranties made by ThinkBig in this Agreement are true and accurate as of the Effective Date and at the date of each disbursement of County funds.

6. The County has received evidence of ThinkBig's compliance with the insurance requirements of this Agreement.

7. ThinkBig has provided a certificate of its secretary or other authorized officer certifying (1) the accuracy of its organizational documents; (2) resolutions of its members duly authorizing the execution, delivery, and performance of this Agreement and all other related documents; and (3) the incumbency and signatures of the officers or managers authorized to execute this Agreement.

8. ThinkBig has provided confirmation of the absence of an Event of Default or an event which, but for the passage of time or the giving of notice, or both, would constitute an Event of Default on the Effective Date.

9. With respect to payment for construction of outside plant fiber placement, ThinkBig has (a) completed end-to-end attenuation, end-to-end signature and splice testing (collectively, the "Required Testing") to the satisfaction of the County in its sole discretion and (b) submitted test results to the County based on the test data template in Appendix D attached hereto.

10. Filing by Shore United Bank of a UCC-3 termination statement releasing the Collateral (as defined below) from Shore United Bank's security interest in the assets of ThinkBig in a form reasonably acceptable to the County.

G. Disbursement of County funds

1. After the Effective Date, the County will disburse County funds to ThinkBig on a reimbursement basis as the Project progresses. ThinkBig shall submit a request for payment as detailed in the Maryland State Broadband Infrastructure Grant Program – Contracting and Funds Request Procedures Guide. No more than 50 percent of the County Match will be paid by the County in the first year of the Construction Period, and no more than 40 percent

of the County Match will be paid by the County in the second year of the Construction Period. The remaining 10 percent of the County Match will be paid once 90 percent of total fiber miles have been installed, tested, and approved by the County.

2. Requests for payment should be made allowing at minimum thirty (30) calendar days to receive funds. The request for payment shall not exceed the eligible costs incurred and approved by the County. The County, in its sole discretion, may disburse funds for eligible costs anticipated to be incurred or costs incurred prior to the Effective Date.

3. The County has a right to withhold disbursement of funds if at any time the County determines, in its sole discretion, that ThinkBig is not performing or completing the Project in a manner satisfactory to the County. The County shall have the right at any time to request that ThinkBig provide additional supporting documentation with any request for payment.

4. Unless otherwise specified by the County, if ThinkBig does not complete a PFSA Phase by the dates referenced in Section 2.H above, then the County may withhold further payments. ThinkBig may request a meeting with the County to discuss any unforeseeable events that led to the inability to complete the Phase by the deadline.

5. Payment will not be made for outside plant fiber placement until the Required Testing is completed. Test results shall (i) meet or exceed the standards required pursuant to Appendix D, (ii) be submitted with the request for payment, and (iii) be based on the test data template in Appendix D attached hereto. The County may, prior to disbursement of funds, undertake such tests itself and ThinkBig will facilitate such testing by the County.

Section 6 Records, Inspections, Meeting and Reporting Requirements

A. Records

1. ThinkBig shall maintain accurate financial, management, programmatic and other records of the Project, including meeting minutes of ThinkBig's governing body, if applicable, for transactions relating to the receipt and expenditure of County funds and administration of the Project (collectively, "Records"). The Records shall be in a form acceptable to the County. ThinkBig shall retain the Records for three (3) years following the date the County approves the Final Report described in Section 6.D.5 below.

2. During the Construction Period and any Post Construction Period Passing, ThinkBig shall make ThinkBig's administrative offices, its personnel, whether full-time, part-time, consultants or volunteers, and the Records available to the County for inspection upon request. During the Construction Period and any Post Construction Period Passing, ThinkBig

shall permit the County to perform program monitoring, evaluation and audit activities as determined to be necessary, at the discretion of the County.

3. ThinkBig shall cause to be maintained for the County's inspection the books, accounts, and records of contractors in connection with the Project for three (3) years past the date the County approves the Final Report.

B. Inspections. During the Construction Period and for a period of three (3) years following the date the County approves the Final Report, ThinkBig shall permit the County to monitor the Project to ensure that the Project is being carried out in accordance with the terms of this Agreement.

C. Meeting Requirements

1. During the Construction Period, the technical teams for the Parties will meet on a weekly basis for purposes of sharing information, data, and plans regarding upcoming construction, so as to enable the Parties to plan accordingly based on shared expectations. The Parties anticipate that these weekly meetings will serve to provide predictability and enable each of the Parties to facilitate and support the needs of the other, as well as to plan appropriately for staffing and other upcoming efforts. During these meetings, ThinkBig will present and discuss any changes to the project plan. The County must approve all project plan changes.

2. Upon completion of the construction of the Network, on a periodic basis to be mutually agreed to by the Parties, ThinkBig and the County will meet to review ThinkBig's operations, the status of the Network, and the state of the partnership between the Parties.

3. The County will assign a project manager to work with ThinkBig and to review and verify progress on the Network construction and operation.

4. ThinkBig will work directly with the County's Economic Development Department to support efforts to attract businesses to the County and to provide data about ThinkBig's commercial broadband data offerings that can be provided to businesses considering locating in the County.

D. Reporting Requirements

1. During the Construction Period, ThinkBig will provide sufficiently detailed written progress reports to the County Project Manager on a quarterly basis (January 1, April 1, July 1 and October 1 of each year) to enable the County to understand the status of deployment. The progress reports should indicate whether or not the construction has met the progress milestones set forth in Section 2.H above and Appendix B. ThinkBig will also provide information on at least the following: a) number of homes passed in each PFSA by phase; 2) number of Subscribers connected in each area by phase; 3) number of potential Subscribers

waiting to be connected in each area by phase; and 4) important milestones for upcoming phases of the project. The report should also include work accomplished and problems encountered, past and projected expenditures of County funds and benchmarks reached. ThinkBig shall ensure that each interim progress report is received by the County no later than ten (10) working days after the due date.

2. During the construction of the Network, ThinkBig shall provide financial detail on every request for payment showing the County contribution, the State Contribution, and ThinkBig's contribution.

3. Upon request, ThinkBig shall provide the County with information and documentation in forms acceptable to the County regarding State Grant Funds. Such information and documentation shall include, but not be limited to, information concerning ThinkBig's receipt and expenditure of State Grant Funds.

4. ThinkBig shall present the County with lien waivers from its contractors to demonstrate that ThinkBig is meeting its obligations and that all equipment and labor purchased for the Project are not subject to contractor liens. ThinkBig shall not cause or permit any part of the Network to become subject to any mechanic's, materialmen's, or vendor's lien, or any similar lien.

5. Within forty-five (45) calendar days after ThinkBig completes the Project, ThinkBig shall submit to the County a final report (the "Final Report") in a manner and form to be determined by the County that describes the completed Project, the success of the Project including the number of homes and businesses that gained access to broadband facilities, any problems encountered in completing the Project, and such other information as the County requires. The Final Report shall also contain an expense and revenue summary of the Project, certified by the highest fiscal officer of ThinkBig, that lists all expenditures relating to County funds. In addition, any completed studies, surveys, reports, or other work products, if applicable, shall be attached to the Final Report. The Project will not be considered fully closed out until the Final Report has been submitted to, and accepted by, the County.

6. Throughout the Construction Period, on an annual basis beginning one year after the Effective Date, ThinkBig will provide a report to the County Board of Commissioners regarding construction of the Network, its operations, the status of the Network, and the state of the partnership between the Parties.

7. In addition to the requirements set forth above, during construction of the Network, ThinkBig shall provide the County with such additional records, reports and other documentation as may be required by the County.

8. Following the completion of construction of the Network and during the term of the Agreement, ThinkBig will provide an annual report to the County Board of Commissioners

which shall include (1) A summary of the previous year's activities in development of the Network in the PFSA, including services begun or discontinued during the reporting year and the number of Subscribers for each service level; (2) A summary of any potential plans for investment in Charles County; and (3) the service backlog of Subscribers scheduled to be connected in the PFSA.

9. Within thirty (30) days of a written request, ThinkBig shall submit to the County a report showing the number of Complaints that required a service call, originating from the PFSA and received during the previous 12-month reporting period, the dates they were received, the addresses of the Complaints, summary descriptions of the Complaints, the dates the Complaints were resolved and summary descriptions of the resolutions.

10. As with any County project, the Parties anticipate that unexpected circumstances may arise as a result of inclement weather or other unforeseeable factors. If so, the County may, in its sole discretion, extend the time frame for certain reporting requirements in this Agreement.

Section 7 Additional County Obligations

- A. The County's review of documents and data provided by ThinkBig shall not be unreasonably delayed or denied. To the extent possible, the County will provide support and assistance in permitting and navigation of other County processes including access to the Public Rights-of-Way.
- B. To the extent feasible and agreeable by both parties, the County will provide access, based on terms and conditions to be negotiated, to County real property for locating communications equipment. The County will also assist ThinkBig, to the extent feasible, with identifying other structures, both private and County-owned, for potential placement of Network equipment.
- C. The County will provide to ThinkBig access to County mapping databases and other data resources, subject to a Non-Disclosure Agreement to be signed by ThinkBig and subject to the County's confidentiality considerations. In addition, the County will provide ThinkBig, to the extent feasible and consistent with State law, access to certain materials developed by the County for assessing broadband opportunities including, but not limited to, geographic information systems data.

Section 8 Length of Term

- A. The term of this Agreement is twenty (20) years from the Effective Date. The expiration or termination of this Agreement shall not affect ownership rights the County holds in fiber optic cable transferred to the County, nor the maintenance obligations of ThinkBig, as established in a separate Fiber Optic Sale and Maintenance Agreement.

- B. ThinkBig shall provide Broadband Data Service availability to PFSA Designated Locations for at least twenty (20) years.

Section 9 Customer Service Standards

- A. ThinkBig will provide an experienced and able management team to design, build, operate, and maintain the Network. ThinkBig will respond to the needs of its subscribers through high-quality customer service. ThinkBig agrees to comply with the customer service standards detailed in this Section for all Subscribers in the PFSA.
- B. ThinkBig will provide and maintain a local or toll-free telephone line for taking customer calls and will provide other forms of customer contact, such as a website that enables comment by Subscribers, that will be available 24 hours per day, seven days per week, including on holidays. During the hours of 10 am to 8 pm from Monday through Saturday and 11 am to 6 pm on Sunday ("Normal Business Hours"), company representatives will be available to respond to customer inquiries. Appendix F: Maintenance Standards

Scheduled Maintenance

Routine maintenance and repair of the County Fiber ("Scheduled Maintenance") shall be performed by or under the direction of ThinkBig, at ThinkBig's reasonable discretion. Scheduled Maintenance shall commence with respect to each Segment upon the Effective Date of this Agreement.

Unscheduled Maintenance

Non-routine maintenance and repair of the County Fiber that is not included as Scheduled Maintenance ("Unscheduled Maintenance") shall be performed by or under the direction of ThinkBig. Unscheduled Maintenance shall commence with respect to each Segment upon the Effective Date. Unscheduled Maintenance shall consist of:

- **"Emergency Unscheduled Maintenance"** in response to an alarm identification by ThinkBig's Operations Center, notification by the County or notification by any third party of any failure, interruption or impairment in the operation of fibers within the ThinkBig Network, or any event imminently likely to cause the failure, interruption or impairment in the operation of County Fiber or fibers within the ThinkBig Network.
- **"Non-Emergency Unscheduled Maintenance"** in response to any potential service-affecting situation to prevent any failure, interruption or impairment in the operation of fibers within the County Fiber or ThinkBig Network not covered by Scheduled Maintenance. The County shall immediately report the need for Unscheduled Maintenance to ThinkBig in accordance with reasonable procedures agreed by the Parties from time to time. ThinkBig will log the time of the County's report, verify the problem and dispatch personnel immediately to take corrective action.

Operations, Maintenance, and Repair

ThinkBig shall have on call (24) hours a day, seven (7) days a week trained and qualified personnel. ThinkBig's maintenance personnel shall be available for dispatch twenty-four (24) hours a day, seven (7) days a week. ThinkBig will not be responsible for monitoring the performance or operation of the County Fiber; in the event that the County detects a failure in the operation of the County Fiber which may indicate the need for Unscheduled Maintenance, The County shall report the failure to ThinkBig's representative. ThinkBig will provide the County with contact information for reporting the failure and will update the contact list as necessary.

Planned Service Work Period

Scheduled Maintenance that is reasonably expected to produce any signal discontinuity must be coordinated between the Parties. Generally, this work should be scheduled after 12:01 and

before 4:59 a.m. Monday through Friday, local time, with exceptions made only as needed for emergencies. The intent is to avoid jeopardy work during high-traffic periods.

Cooperation and Coordination

In performing its services hereunder, ThinkBig shall take workmanlike care to prevent impairment to the signal continuity and performance of the County Fiber. The precautions to be taken by ThinkBig shall include notifications to the County. In addition, ThinkBig shall reasonably cooperate with County in sharing information and analyzing the disturbances regarding the County Fiber. In the event that any Scheduled or Unscheduled Maintenance hereunder requires a traffic roll or reconfiguration involving cable, fiber, electronic equipment, or regeneration or other facilities of the County, then County shall, at ThinkBig's reasonable request, make such personnel of the County available as may be necessary in order to accomplish such maintenance, which personnel shall coordinate and cooperate with ThinkBig in performing such maintenance as required of ThinkBig hereunder.

ThinkBig shall notify County at least (5) calendar days prior to the date in connection with any Planned Service Work Period ("PSWP") of any Scheduled Maintenance and as soon as possible after becoming aware of the need for Unscheduled Maintenance. The County shall have the right to be present during the performance of any Scheduled Maintenance or Unscheduled Maintenance so long as this requirement does not interfere with ThinkBig's ability to perform its obligations under the Agreement. In the event that Scheduled Maintenance is canceled or delayed for whatever reason as previously notified, ThinkBig shall notify County at ThinkBig's earliest opportunity, and will comply with the provisions of this Agreement to reschedule any delayed activity.

County Fiber

ThinkBig shall have its first maintenance personnel at the site requiring Emergency Unscheduled Maintenance activity within four (4) hours after the time ThinkBig becomes aware of an event requiring Emergency Unscheduled Maintenance, unless delayed by Force Majeure Events. ThinkBig shall maintain a 24-hour toll-free telephone number to contact repair personnel. ThinkBig's personnel shall dispatch maintenance and repair personnel along the system to handle and repair problems detected in the ThinkBig Network: (i) upon notification by one of ThinkBig's personnel or agents, (ii) upon notification through the ThinkBig's and/or the County's remote surveillance equipment, (iii) upon notification by the County to ThinkBig, or (iv) upon notification by a third party.

ThinkBig shall maintain sufficient capability to teleconference with the County during Emergency Unscheduled Maintenance in order to provide regular communications during the repair process. When correcting or repairing cable discontinuity or damage, including but not limited to an Emergency Unscheduled Maintenance event, ThinkBig shall repair traffic-affecting discontinuity within eight (8) hours after ThinkBig's representatives' arrival at the problem site. In order to accomplish such objective, it is acknowledged that the repairs so affected may be

temporary in nature. In such event, within fifty-five (55) hours after completion of any such Emergency Unscheduled Maintenance, ThinkBig shall commence its planning for permanent repair, and thereafter promptly shall notify County of such plans; and shall implement such permanent repair within an appropriate time thereafter. In repairing any fiber outages, all open fibers on fiber strands that are immediately required for service will be restored by ThinkBig first as set forth herein. Restoration of open fibers on fiber strands not immediately required for service shall be completed on a mutually agreed-upon schedule. If the fiber is required for immediate service, the repair shall be scheduled for the next available PSWP.

ThinkBig's representatives that are responsible for initial restoration of a cut cable shall carry on their vehicles the typically appropriate equipment that would enable a temporary splice, with the objective of restoring operating capability in as little time as possible. ThinkBig shall maintain and supply an inventory of spare cable in storage facilities supplied and maintained by ThinkBig at strategic locations to facilitate timely restoration.

Restoration

ThinkBig shall respond to any event giving rise to the need for Unscheduled Maintenance as quickly as possible (allowing for delays caused by Force Majeure Events) in accordance with the procedures set forth herein.

When restoring a cut cable in the ThinkBig Network, the parties agree to work together to restore all traffic as quickly as possible. ThinkBig, promptly upon arriving on the site of the cut, shall determine the course of action to be taken to restore the cable and shall begin restoration efforts. ThinkBig shall splice fibers tube by tube or ribbon by ribbon or fiber buffer by fiber buffer, rotating between tubes, ribbons or buffers operated by the parties having an interest in the cable, including County and all future fiber users of the system; provided that, operating fibers (i.e., fibers which have been jumpered to the County's or another party's space or equipment) in all buffer tubes or ribbons or fiber bundles shall have priority over any non-operating fibers in order to allow transmission systems to come back on line; and provided further that, ThinkBig will continue such restoration efforts until all lit fibers in all buffer tubes or ribbons are spliced and all traffic restored. Notwithstanding the foregoing, ThinkBig does not guarantee any specific rotational prioritization for the County in light of the overriding requirement for expediency in restoration of services to all parties.

Facilities

The County will be solely responsible for providing and paying for any and all maintenance of all electronic, optical, and other equipment, materials and facilities used by the County in connection with the operation of the County Fiber, none of which is included in the maintenance services to be provided hereunder.

Subcontracting

ThinkBig may subcontract any of the maintenance services hereunder; provided that ThinkBig shall require the subcontractor(s) to perform in accordance with the requirements and procedures set forth herein. The use of any such subcontractor shall not relieve ThinkBig of any of its obligations hereunder.
